## MANAGER'S MINUTE

On November 19, 2025, we were extremely honored to be awarded the 2025 International Better Business Bureau Torch Award for Ethics. This award was given to only four companies in North America, and we are incredibly proud to be one of them. While I am very proud of this accomplishment, I realize that it could not have happened without the amazing clients we serve and my outstanding staff. They truly care about taking care of all your automotive needs. We are all truly thankful for the trust you place in us with the service of your vehicles.

We wish everyone a very Merry Christmas and a Happy New Year. Please enjoy the holidays and stay safe!

See you soon,

## HELP PREPARE YOUR CAR FOR THE WINTER SEASON WITH THESE WINTER CAR CARE TIPS.

Getting your vehicle ready for winter's icy road conditions can be essential for the safety and performance of your vehicle. Consider checking or talking to your auto repair professional about the following:

- 1. **SERVICE YOUR VEHICLE AND DO A MAINTENANCE INSPECTION:** This can include checking your car's fluids, such as engine oil, antifreeze and windshield washer fluid. Check that your brakes are in good working order. Confirm there are no cracks or signs of wear and tear on hoses and belts.
- 2. **LOOK AT YOUR VEHICLE'S BATTERY STRENGTH:** Cold weather can take a toll on your car's battery. Have it tested by a professional to check its charge and replace your battery, if needed. The connections should be clean, tight and without rust.
- 3. **TEST THE VEHICLE'S HEATER AND DEFROSTERS:** Seeing clearly through your windshield is important for safer winter driving, which means your heater and defroster should be working properly.
- 4. **EXAMINE YOUR CAR TIRES AND CONSIDER WINTER TIRES:** Good traction on snow and ice can be vital for safe driving in severe weather. Consider switching to winter tires if you live in a region with severe winter conditions and check your tire tread depth.
- 5. **CHECK YOUR TIRE PRESSURE:** Check the air pressure on your tires once a month to help ensure safe travels. Typically, the recommended PSI is 30-35 but check your owner's manual for the exact number.
- 6. **INSPECT YOUR WIPER BLADES:** Wiper blades should be in excellent condition to help clear your windows. If any streaks or skips occur while using them, it might be time to consider a new set of blades.
- 7. **CHANGE YOUR OIL AND FILTER:** Check your vehicle's owner's manual for the manufacturer's recommendations on oil types for temperature changes or contact a licensed mechanic.
- 8. **CARRY AN EMERGENCY WINTER DRIVING KIT:** Winter weather could leave you trapped in the snow, but a driving emergency kit might help you get back on the road and on your way. Your car kit could include the following items: ice scraper, shovel, tow and tire chains, jack, jumper cables, car tool kit, flares, battery-powered flashlights, extra batteries, warm clothing, blankets, cell phone and charger, first aid kit, non-perishable food and water, extra windshield wiper fluid, antifreeze, and sand or cat litter for traction.
