*We Think You Are
 AWESOME!*

July is a significant month in NASA history, marked by the establishment of the agency and the Apollo 11 moon landing. NASA was officially created on July 29, 1958, with the signing of the National Aeronautics and Space Act. The Apollo 11 mission, which achieved the first human landing on the Moon, took place from July 16-24, 1969, with Neil Armstrong's first steps on the lunar surface occurring on July 20.

Client Newsletter

MANAGER'S MINUTE

Antifreeze is the lifeblood of your vehicle. It is just as important to keep your antifreeze properly maintained during the summer months as it is in the winter. You see, antifreeze breaks down over time and loses its anticorrosive features. This results in corrosion to all metal components and a rusty, sludgy material forming—plugging up the radiator, heater core, and engine passages. Common sense says this is not good for you or your vehicle.

I recommend that you have your antifreeze checked at every maintenance interval. If it has been a while, get it checked—it will save you a lot of grief.

See you soon!

Mark

Thanks for the Kind Words!

"I had an oil leak and took my 7-year-old truck to Yeck's, expecting a potentially costly repair. After checking it out, they found it was just a loose oil filter—nothing major. Instead of taking advantage of the situation, they simply tightened it up and sent me on my way. Finding a mechanic shop is easy. Finding an honest auto shop is worth every penny on the invoice. These folks proved they truly care about doing right by their customers. Highly recommend them for their integrity and professionalism!" —Robert P., Bellevue, NE.

Grilled Beer Brats

It takes almost zero cooking skills (you do have to know how to turn the grill on) to get perfectly charred brats topped with flavor-packed caramelized onions and bell peppers! Top with a drizzle of grainy mustard, or get even more authentic and add sauerkraut.

Use whatever beer you like, though it's recommended to skip the IPAs (India Pale Ales). Want the flavor, but not the beer? Try a dry cider, non-alcoholic beer, or chicken broth if you're trying to avoid the alcohol altogether.

Yields: 6 • Total Time: 30 mins

INGREDIENTS			
• 6 bratwurst sausages	• 1 bell pepper	• Hot dog buns	• Sauerkraut or relish
• 1 large onion	• 16 oz beer	• Whole-grain mustard	

DIRECTIONS	
1. Step 1-	Place a 12" cast-iron skillet on grill and heat to high. Meanwhile, grill brats until charred on both sides, about 6 minutes total.
2. Step 2-	Once skillet is hot, add onions, bell peppers, beer, and charred brats and cover skillet with lid. Cook undisturbed until onions and peppers are caramelized and beer is reduced, about 20 minutes.
3. Step 3-	Serve brats in buns topped with onions, bell peppers, mustard, and sauerkraut or relish.

Puzzle Solution

FEELING THE SUMMER HEAT? YOUR CAR'S BATTERY IS, TOO!

Summer highs rather than winter lows pose the greater threat to battery life. When most motorists think of dead batteries that cause starting failure, they think of severe winter weather, but summer heat is the real culprit. To get the most life out of your battery, start by following a few simple steps:

- Be sure the electrical system is charging at the correct rate. Overcharging can damage a battery as quickly as undercharging.
- If your battery is the type that needs to be topped off, check it regularly, especially in hot weather.
- Add distilled water when necessary.
- Always replace a battery with one that's rated at least as high as the one originally specified.
- Keep the top of the battery clean. Dirt becomes a conductor, which drains battery power.

And of course, when in doubt, it's always best to get your car's battery tested by your local auto care professional!
