CAR MAINTENANCE TIPS FOR NOVEMBER

As we prepare for winter driving conditions, ensure your vehicle is ready with these essential maintenance tips:

1. **Check Battery Health:** Cold weather can affect battery performance. Have your battery tested to ensure it holds a charge effectively.
2. **Inspect Tires:** Check tire pressure and tread depth. Consider switching to winter tires for better traction in snowy or icy conditions.
3. **Fluid Levels:** Ensure that all fluids (engine oil, brake fluid, coolant, windshield washer fluid) are at the appropriate levels. Top off as necessary.
4. **Wiper Blades:** Check and replace wiper blades if they're worn. Clear visibility is critical during rainy or snowy weather.
5. **Brakes:** Have your brakes inspected to ensure they are functioning optimally, especially if you anticipate driving in challenging conditions.
6. **Lights:** Test all exterior lights (headlights, brake lights, turn signals) to ensure they are working correctly for safer night driving.
7. **Emergency Kit:** Prepare an emergency kit for your vehicle, including blankets, a flashlight, snacks, and a first-aid kit.
