

Thanks for the Kind Words

"I couldn't be more pleased with the service I receive at Yeck's! They are always very helpful when it comes to scheduling appointments. The staff is great at explaining any issues your car may have while striving to fix the issue in a timely manner. Thank you for everything! I would highly recommend them to anyone needing their car serviced!" Hope C., Bellevue.

Welcome July!

It's time to get chillin' with some patriotic grillin'!

THINGS YOU AUTO KNOW

Antifreeze is the lifeblood of your vehicle. It's just as important to keep your antifreeze properly maintained during the summer months as it is in the winter. You see, antifreeze breaks down over time – loses its anticorrosive features. This results in corrosion to all metal components and a rusty, sludgy material forming & plugging up the radiator, heater core & engine passages. Common sense says this isn't good for you or your vehicle. I recommend that you have your antifreeze checked at every maintenance interval. If it's been a while, get it checked – it'll save you a lot of grief.

Thank you for your continued support and See You Soon! – Mark Lowe

AIR CONDITIONING PERFORMANCE CHECK

HERE'S WHAT YOU GET...

- Test Overall System Cooling & Operation
- Inspect Hoses & Connections
- Check Fan & Blower Operation
- Check Drive Belts & Hoses

CHECK VEHICLE A/C & STAY COOL ON THE ROAD!

Imagine being stuck in traffic on a 90-degree day when your vehicle's air conditioning system malfunctions. With summer heating up, the non-profit Car Care Council recommends that motorists have their A/C system checked to make sure it's working properly.

"As the weather turns warmer, the last thing anyone wants to be is hot under the collar in their vehicle when they are driving to work or on a family vacation," said Rich White, Executive Director, Car Care Council. "Making sure your A/C system is working properly will keep you & your passengers cool & safe, making it a very enjoyable summer on the road."

A vehicle's heating, ventilation & air conditioning system (HVAC) keeps the interior cabin comfortable in any season by providing the right temperature & humidity level. Typical A/C service by a professional service technician consists of the following steps:

- Service technician visually inspects hoses, lines, seals & other components for leaks as well as inspects the drive belt for cracks or damage.
- Technician checks pressure to test operation, refrigerant charge & outlet temperatures.
- If the system is found to be low on refrigerant, a leak test is performed to find the source of the leak. Leaking refrigerant heats up a vehicle & damages the ozone layer.
- Refrigerant may be added, if necessary, to "top off" the system, although some states do not allow "topping off."
- A technician may also check for evidence of refrigerant cross-contamination.
- A/C service should also include a check of the compressor's drive belt & tension.

The Car Care Council also recommends that when having a vehicle's HVAC system inspected, the cabin air filter be checked to make sure air is flowing properly into the car.

July Days and Dates

- 7/5 - National Apple Turnover Day

Expires July 31, 2022

JULY 1ST IS INTERNATIONAL JOKE DAY!

Here's a few funnies to get you ready for Independence day...

Teacher: "Tommy: can you tell us where the Declaration of Independence was signed?"
Tommy: "Yes, ma'am. At the bottom."

Teacher: "What did George Washington say to his men before they crossed the Delaware?"
Johnny: "Get in the boat, men!"

Tommy: "Does Europe have a 4th of July?"
Teacher: "No."
Johnny: "Yes, it does. It comes right after the 3rd of July!"

Teacher: "Johnny: what are the last words of 'The Star-Spangled Banner'?"
Johnny: "Play ball?"

The Fourth of July weekend was coming up, and the nursery school teacher took the opportunity to tell her class about patriotism. "We live in a great country," she said. "One of the things we should be happy about is that, in this country, we are all free."
From the back of the room, one little boy stood up and glared. With hands on hips he boldly replied, "I'm not free, I'm four!"

Red, White & Blue Ice Cream Pie

- 1-1/4 cups graham cracker crumbs
- 1/2 cup granulated sugar, divided
- 1/3 cup butter, melted
- 1/4 cup water
- 2 teaspoons cornstarch
- 2 cups fresh blueberries
- 1 teaspoon lemon juice
- 2-1/2 cups vanilla ice cream, softened
- 1-1/4 cups sliced fresh strawberries
- Reddi-wip® Dairy Whipped Topping

Directions

Preheat oven to 375°F. Spray 9-inch glass pie plate with cooking spray, set aside. Stir together graham cracker crumbs & 1/4 cup sugar in medium bowl. Add melted butter, mix well. Press mixture firmly in bottom & up sides of pie plate. Bake 6 minutes or until golden brown & set. Cool completely, about 35 minutes. Meanwhile, stir together water, remaining 1/4 cup sugar & cornstarch in small saucepan. Add blueberries & lemon juice. Bring to a boil over medium heat, stirring frequently. Cook 5 minutes or until thickened, stirring occasionally. Remove from heat, let cool 5 minutes. Spread blueberry mixture evenly over crust. Refrigerate 10 minutes. Spread softened ice cream over blueberry mixture. Freeze pie until firm, about 4 hours. Arrange strawberries over ice cream. Cut into 8 slices, top with Reddi-wip. Serve immediately.

The Intrepid Fallen Heroes Fund (IFHF) serves United States military personnel experiencing the Invisible Wounds of War: Traumatic Brain Injury (TBI) and Post-Traumatic Stress (PTS). When our Servicemen and women return from the battlefield, IFHF helps them fight 'The War Within' by building world-class, advanced treatment centers providing the best TBI and PTS care, enabling them to continue to serve on Active Duty and enjoy a productive life.

Currently, IFHF is building a series of ten specially-designed treatment facilities, called Intrepid Spirit Centers, on military bases across the nation. Eight Intrepid Spirit Centers are open and serving America's brave men and women in uniform. The ninth center is currently under construction at Fort Carson, CO, with a tenth center planned at Fort Bliss, TX.

The Intrepid Spirit Center program is only the latest in the Intrepid Fallen Heroes Fund's almost 20-year history of assisting America's military community. Since 2000, IFHF has provided over \$200 million in support for severely wounded military personnel and families of military personnel lost in service to our nation.
