

# A Night at the Movies

The 95th Academy Awards ceremony will be presented by the Academy of Motion Picture Arts and Sciences. It will honor films released in 2022 and is scheduled to take place at the Dolby Theatre in Los Angeles on March 12, 2023. In honor of the occasion, here's a fun word puzzle to get you in a movie mood!

**DIRECTIONS:** Find and circle the words in the grid. Look for them in all directions including backwards and diagonally.

## MARCH DAYS & DATES

3/8 • International Women's Day  
3/12 • Daylight Saving Time Begins  
3/17 • St. Patrick's Day  
3/20 • First Day of Spring

## MARCH IS...

- American Red Cross Month
- Irish American Heritage Month
- National Nutrition Month
- Fire Prevention Month
- National Peanut Month

## MARCH 8TH IS INTERNATIONAL WOMEN'S DAY!

International Women's Day (March 8) is a global day celebrating the social, economic, cultural, and political achievements of women. The day also marks a call to action for accelerating women's equality.

IWD has occurred for well over a century, with the first IWD gathering in 1911 supported by over a million people. Today, IWD belongs to all groups collectively everywhere. IWD is not country, group or organization specific.

## MANAGER'S MINUTE

Is Your car Ready for that Summer Road Trip?

Summer is right around the corner and people are anxious (now more than ever) to get back on the road – is your car really safe? Here are some things that you can look at yourself before you pack up the family and head out:

Check the Tires: Properly inflated? Any tread left (bald)? Uneven wear? Age? Weather cracking in tread and sidewalls?

Check the Lights: You need to make sure that your taillights, brake lights, turn signals, and headlights work. Are the headlight lenses cloudy?

Look for Leaks: Anything on the ground where you've been parking? What color is it?

Check your Wipers: Are they torn? Are they streaky? Remember to check the rear one, too!

Investigate Warning Lights: If there are any warning lights on it probably means there's something wrong and needs attention!

Inspect the Battery: How old is it? Average life is 3-5 years. Any corrosion present? Can it still be serviced? Add distilled water only!

Check Belt(s) & Hoses: How old are they – over 60K on them? Cracking? Leaking?

Check All the Fluids You Can: You know what to do here!

Well, how does your car measure up?

See You Soon! -Mark

Mark

# BRAKES FOR KIDS

Dear Neighbor,  
From March 1, 2023, through March 31, 2023, get FREE brake pads or shoes with any brake repair. Even better, 10% of the brake repair costs are donated to benefit St. Jude Children's Research Hospital®.

St. Jude Children's Research Hospital is leading the way the world understands, treats, and defeats childhood cancer and other life-threatening diseases. And families never receive a bill from St. Jude for treatment, travel, housing or food—so they can focus on helping their child live. Their mission is clear: Finding cures. Saving children.® Consistent with the vision of founder Danny Thomas, no child is denied treatment based on race, religion, or a family's ability to pay.

So, call or stop in today to schedule a FREE brake inspection. If you should need brakes, not only will you save a lot of money, you'll be helping children and families in need.

I look forward to seeing you soon,

*Mark*

Must present coupon. Cannot be combined with any other offer. Excludes tires & batteries. See store for full details.

**EXPIRES 02/28/2023**

## PUTTING OFF CAR CARE? STOP STALLING!

Overdue for an oil change or a brake inspection? Whatever the service, by postponing necessary maintenance, you may be causing extensive damage to your vehicle and increasing the chance of a breakdown. The non-profit Car Care Council suggests you stop stalling and get your vehicle serviced today.

"Many people don't realize the consequences of putting off needed vehicle maintenance. Not only can neglecting vehicle service cause safety issues if ignored, but it can lead to costly repairs down the road," states the Car Care Council's board. "With nearly 80 percent of vehicles needing service, a new part and/or repair, chances are your vehicle could use some extra attention."

The Car Care Council recommends following a vehicle service schedule, keeping a free copy of the council's Car Care Guide in the glovebox and performing these most common routine maintenance procedures to keep your vehicle performing at its best...

- Check all fluids, including engine oil, power steering, brake and transmission as well as windshield washer solvent and antifreeze/coolant.
- Check the brake system annually and have the brake linings, rotors and drums inspected at each oil change.
- Check the tires, including tire pressure and tread. Uneven wear indicates a need for wheel alignment. Tires should also be checked for bulges and bald spots.
- Check the hoses and belts to make sure they are not cracked, brittle, frayed, loose or showing signs of excessive wear.
- Check the heating, ventilating and air conditioning (HVAC) system as proper heating and cooling performance is critical for interior comfort and safety reasons, such as defrosting.
- Check the wipers and lighting so that you can see and be seen. Check that all interior and exterior lighting is working properly and replace worn wiper blades so you can see clearly when driving during precipitation.

Be sure to fully inspect your vehicle annually, including performing a tune-up and wheel alignment. If you suspect there is a problem, don't stall and address it quickly before minor repairs become more complicated, expensive repairs. For the latest car care news, visit the council's online media room at <http://media.carcare.org>. To order a free copy of the popular Car Care Guide, visit the council's consumer education website at [www.carcare.org](http://www.carcare.org).

## HAPPY PI DAY!

Pi Day is celebrated on March 14th (3.14) around the world. Pi (Greek letter "π") is the symbol used in mathematics to represent the ratio of the circumference of a circle to its diameter, a constant which is approximately 3.14159. As an irrational & transcendental number, it will continue infinitely without repetition or pattern. While only 39 digits past the decimal are needed to accurately calculate the spherical volume of our entire universe, Pi has been calculated by mathematicians to over one trillion digits!

## RECIPE OF THE MONTH | IRISH SODA BREAD

Irish soda bread made with buttermilk and basic ingredients. The buttermilk gives this crusty loaf a good flavor. It's the best Irish soda bread around!

AMAZINGLY EASY IRISH SODA BREAD		
• Prep Time: 15 mins	• 4 cups all-purpose flour	• ½ teaspoon salt
• Cook Time: 45 mins	• ½ cup margarine, softened	• 1 cup buttermilk
• Total Time: 1 hrs	• 4 tablespoons white sugar	• 1 egg
• Servings: 20	• 1 teaspoon baking soda	• ¼ cup butter, melted
• Yield: 1 (1 1/2-pound) loaf	• 1 tablespoon baking powder	• ¼ cup buttermilk

- Directions**
1. Preheat the oven to 375 degrees F (190 degrees C). Lightly grease a large baking sheet.
  2. Mix flour, softened margarine, sugar, baking soda, baking powder, and salt together in a large bowl. Stir in 1 cup of buttermilk and egg. Turn dough out onto a lightly floured surface and knead slightly. Form dough into a round and place on the prepared baking sheet.
  3. Combine melted butter with 1/4 cup buttermilk in a small bowl; brush loaf with this mixture. Use a sharp knife to cut an 'X' into the top of the loaf.
  4. Bake in preheated oven until a toothpick inserted into the center of the loaf comes out clean, 45 to 50 minutes. Check for doneness after 30 minutes. You may continue to brush the loaf with the butter mixture while it bakes.

## FREE BATTERY TEST!

**Don't be stranded with a car that won't start! Stop in during the month of February and we'll test your battery for FREE!**
