MANAGER'S MINUTE

One of the most neglected items we see on any vehicle is the cabin air filter. This filter is just like the one in your home – it cleans the air & helps trap allergens, bacteria, dust, bugs and other debris. A dirty or clogged cabin air filter can cause you to breathe in dangerous fumes & particles, not to mention it will impair air flow which can cause interior heating & cooling problems. We recommend replacing every 12,000 - 15,000 miles.

I would also like to wish any and all fathers a VERY Happy Father's Day. Do not forget to come by and register to win the flat top gas griddle we are giving away in June!!

See you soon, Mark

**DON'T LET TIRES FLATTEN YOUR SUMMER TRAVEL PLANS!**

Getting a flat tire is no fun for anyone at any time, especially on vacation. To keep your summer road trip rolling along, the non-profit Car Care Council recommends a quick tire check before you leave the driveway.

"The excitement of summer driving quickly deflates when your car has a flat tire," says Rich White, Executive Director, Car Care Council. "A quick four-step tire check will help you to avoid the aggravation of changing a flat tire on the side of the road."

- Check that all tires, including the spare, are inflated to recommended pressure levels.
- Check tire tread depth with a simple penny test – if you see Lincoln's head above the tread, then it is time for new tires.
- Check for irregular wear as uneven wear indicates a need for wheel alignment.
- Check tires for cuts, bruises, bulges, bald spots, or other irregularities that can lead to a flat tire.

"AAA expects to get calls from over seven million stranded motorists each summer and a good portion of those vehicle troubles will be tire related," said White. "A comprehensive pre-trip vehicle inspection, including the tires, is the best way to alert you of any potential issues so you can address them before you leave home and keep your road trip on track."

**Summer Tomato & Burrata Salad**

• Prep Time: 10 mins • Cook Time: 0 mins • Makes: 4 Servings

**Ingredients**

1 to 2 4-ounce balls burrata cheese	1 handful fresh basil leaves and thyme sprigs
Summer fruit: heirloom tomatoes, ripe peaches, watermelon, cantaloupe or honeydew, berries, etc.	Extra virgin olive oil Chunky sea salt

**Directions**

1. Place 1 ball burrata on the plate.
2. Surround it with the summer fruit (sliced tomatoes or peaches, or berries).
3. Top with torn basil leaves and other herbs. If desired, add torn pieces of another ball of burrata to add texture and visual appeal.
4. Drizzle with olive oil and sprinkle with chunky sea salt. Serve immediately.

**Where to buy burrata cheese?**  
These days, you can find burrata in many grocery stores in the us! Look in the specialty cheeses section, next to the fresh mozzarella. It's sold in a container with liquid, usually either one or two balls packaged together. You can sometimes find specialty cheeses at a farmers market or specialty grocery, too.

**WE WILL NEVER FORGET**

On June 6th, 1944, United States soldiers, in one of the most pivotal battles of World War II, invaded the French coastline in order to propel German soldiers out of Western Europe and lead the way for victory. Dedicated on June 6th, 2001, by President George W. Bush, the National D-Day Memorial was constructed in honor of those who died that day, fighting in one of the most significant battles in our nation's history. The monument receives an average of 60,000 visitors a year and is a profound addition to America's War Memorials.
