## 1941 Chrysler Town and Country

These cars of the 1940s were the forerunner to the modern-day minivan.

The Town & Country Wagon like the Mini Van featured an optional 9 passenger seating, a rear hatch, and was the first to include genuine wood exterior panels. The Town & Country Wagon was the original "woody". This car made a huge splash with the public especially during the postwar era. The popular convertible version hit the highways in 1949 with a starting price of \$3,970.

The 1940 Chrysler Saratoga along with other Chrysler cars adopted the new sealed beam headlights which gave over 50% more light in high beam. During the middle of the 1940s, a special model called the Highlander was introduced as a closed coupe and convertible. It had authentic Scotch plaid and moleskin leather upholstery. The Saratoga was introduced as a performance version of the New Yorker.

### Interesting Trivia About 1940s Cars

A new car back in 1940s was about \$800 and for 18 cents, you could buy a gallon of gas. On average most 1940s cars got about 15 to 20 miles per gallon.
