WE OUR CLIENTS!

The average life of a battery is 3-5 years. Contrary to popular belief, summer highs rather than winter lows pose the greater threat to your battery. If your battery is getting on in years I recommend having it checked (FYI... your battery should be tested at regular maintenance intervals) – it can fail you with no warning at all.

See You Soon! – Mark

THINGS YOU AUTO KNOW...

For All the Hot Dog lovers out there!

National Hot Dog Day seeks to appreciate hotdogs. The National Hot Dog and Sausage Council created the National Hot Dog Day to honor the all-American hot dog. The first National Hot Dog Day was held in 1991, where a hot dog luncheon was served on Capitol Hill. Since then, it has become tradition to serve hot dogs to Capitol Hill staffers, lawmakers, agency officials and baseball legends.

Frankfurters, which are very similar to hot dogs, originated in Frankfurt, Germany. In the 1880s, Antoine Feuchtwanger began to sell hot dogs in St. Louis, Missouri. Eventually by the 1890s it is believed that Chris von der Ahe, a German immigrant who owned the St. Louis Browns, began to sell hotdogs at baseball games. Since then, hotdogs have been deeply rooted in American baseball culture. To honor the association between baseball and hotdogs the American Meat Institute invites baseball players to attend the annual hotdog luncheon on Capitol Hill during National Hot Dog Day.

National Hot Dog Day Facts

- The record for most hot dogs made in one minute is 11, according to Guinness World Records. It was set by Andre Ortolf in 2016, and equaled by Luke Franks in 2017.
- According to the National Hot Dog and Sausage Council, the proper etiquette required to eat a hotdog is finish the hot dog in five bites. In the case of a foot-long wiener, only seven bites are appropriate.
- Across the United States, consumers spent more than \$3 billion on hot dogs in 2018. Los Angeles residents consume more hotdogs than any other city – more than 39 million hotdogs.
